## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over TALE' ET AL (US 6269931).

TALE' ET AL substantially discloses the claimed method of wrapping orderly groups of cigarettes except for an outer layer of cigarettes being narrower than the adjacent groups.

However, in TALE' ET AL, a middle layer of cigarettes is narrower than the inner and outer layer.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to perform the method of wrapping orderly groups of cigarettes with the narrower layer being on the outside, or on any side that forms a more closely packed or visually appealing package for consumers.
